

5/10/2023

ANNOUNCEMENTS:

The following are a few important updates and reminders.

Dust Control Date Changed. Aspen Cove roads will be closed Monday May 22 for the application of dust control chemical solution. This is a change from the date previously announced. The change was in response to a request from the dust control contractor and a neighboring community to swap dates due to snow conditions. The Erkkilas will be working on the roads next week, bringing in road base, grading, and watering in order to prepare for the application of mag chloride the Monday following.

Front Gate Now in Operation. It was necessary to take the gate out of operation for most of the winter due to the overwhelming quantity of snow. The snow has finally melted to the point that it is possible to put the gate back into service safely. The code remains 7867 (STOP) until August 1.

Courts Are Unavailable Until Work Completed. As previously announced, the pickleball/tennis/basketball courts will remain locked until new baskets are installed and the surfaces are cleaned, repaired, and sealed. As with the front gate, we have been unable to get to this needed maintenance due to the snow. We do not have a date certain yet, but will try to get the work done before the end of May.

As always, address any questions by emailing the board: board@aspencovehoa.org
