To: Aspen Cove Board Email <board@aspencovehoa.org>

I inspected everyone's lot this weekend for Thistle. There are several lots that need attention. Bonnie, can you send the below email to everyone for me? In addition to the lots we have a lot of Thistle growing down the dugway. I had some spray left after spraying all the weeds at my lot yesterday so sprayed some of the thistle down the dugway, but I ran out of spray before being able to spray them all. If any of you want something changed in the email below let me know prior to Bonnie sending it out.

Notification for the Lots with Thistle problems

Lot owners, i drove by everyone's lots yesterday (7/28/2019) from the main road to inspect for Thistle. We have several lots that have thistle that needs to be removed. With all the moisture we had over the winter we have much more thistle growing than we did last year. If your lot is on this list please make sure you get up to Aspen Cove as soon as possible to get the thistle taken care of. If you cannot make it up please make arrangements to have it removed. I will be going back up in 3 weeks, the weekend of August 17th to inspect again. We as a board do not want to fine lot owners for not removing the thistle from their lots, so please make sure it is removed prior to August 17th to avoid any fines.

If your lot is on the list it will have a 1,2 or 3 next to your lot number, all of them are indications that you have thistle that needs to be removed. If you have a 1, it indicates i noticed 1-5 thistle, 2 indicates 5-10 and 3 indicates 10+. Keep in mind this was done from the main road, i did not walk on to each of your lots to inspect the entire lot.

If you have any questions or concerns with what i am indicating for your lot please let me know.
